REMOTE PATIENT MONITORING (RPM) PROGRAM

PULSE OXIMETER
QUICK START GUIDE

Medical Brain has partnered with Wellue® to bring you a best-in-class self monitoring fingertip oximeter device which meets U.S. Food & Drug Administration (FDA) guidelines.

You will find in this guide:
- All steps to connect this device to the Medical Brain app by taking your first reading
- About the Medical Brain and its app features

medical brain®

WELCOME,

Your provider has selected you for the Medical Brain Remote Patient Monitoring (RPM) Program with YOUR healthcare needs in mind. We're linked to your provider. No gaps, no delays.

We're here for your health!

The Medical Brain Team

The Medical Brain RPM Program provides you with:

Your pulse oximeter selected for you by your provider

Your Medical Brain app – your personal health assistant that always understands your health needs and takes immediate actions to prevent problems

Should you experience a change in your health, the Medical Brain will notify your provider for early intervention and treatment

Your dedicated Medical Brain Care Team, in partnership with your provider, giving healthcare support when you need it the most
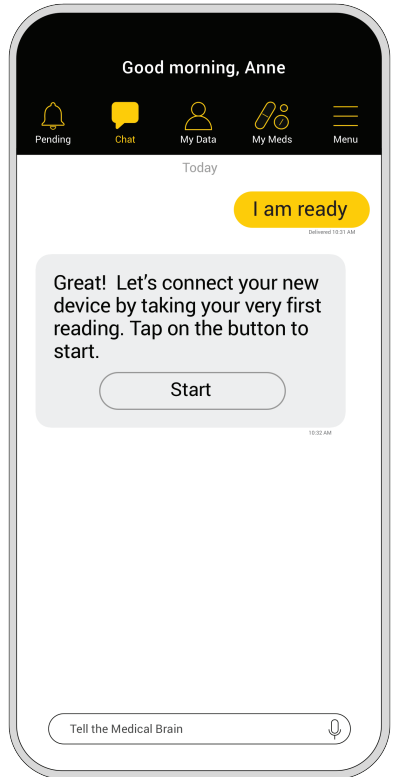

Get started

1

Open the Medical Brain app

- Tap on the "Chat" icon

- Type or use the Microphone icon to tell the Medical Brain **"I am ready"**

  Medical Brain will respond to you with a "Start" button

- Tap on the button to start

- Follow steps

Note: This is a one-time process needed to connect your device to the app

---

Good morning, Anne

Today

I am ready
Delivered 10:31 AM

Great! Let's connect your new device by taking your very first reading. Tap on the button to start.

Start

10:32 AM

Tell the Medical Brain 🎤

**2** **Get your phone ready to connect with your new device**

Ensure Bluetooth is turned ON in your phone

If OFF, how do I turn it ON?

1 Go to your phone's home screen

2 Tap on the "Settings" icon

3 Look for 🅱 "Bluetooth" in the list

4 Tap the "Bluetooth" switch to turn it ON

3 Install the included batteries into your pulse oximeter

Install batteries with the positive (+) and negative (-) terminals properly aligned with the corresponding symbols in the battery compartment
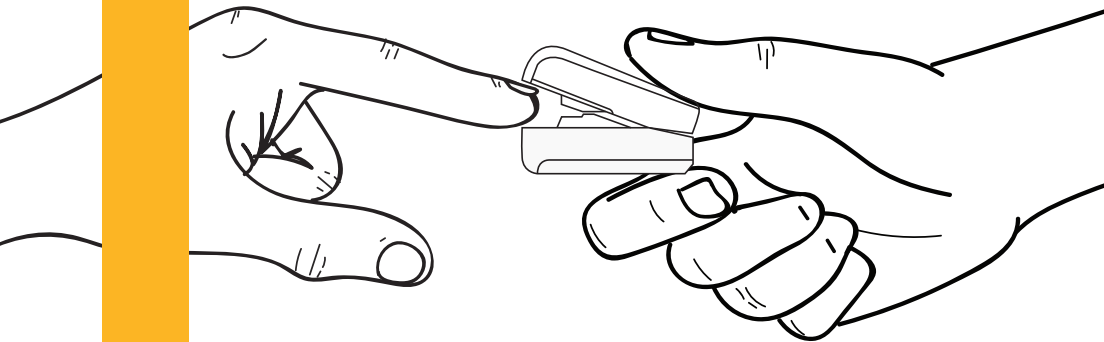

4 Take first reading

Open the clip and put finger inside the rubber cushions of the clip (make sure the finger is in the correct position), and then clip the finger

Wait 2 seconds, the Oximeter will power on automatically and start to measure

Your measurement will be sent to the Medical Brain

5 Allow permissions

At this point, your pulse oximeter is connecting with your phone and the Medical Brain app

To enable connection, please allow all requests for Bluetooth and/or Location

Not allowing these permissions will stop the pairing (connecting process)

"Medical Brain"
Would like to Use Bluetooth

It allows you to connect Bluetooth devices and automatically import your data into Medical Brain

DON'T ALLOW   OK
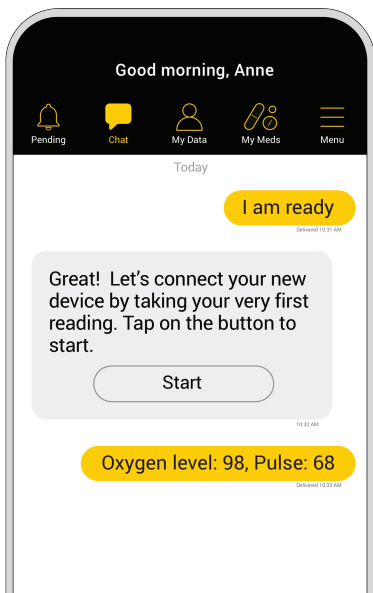

Allow "Medical Brain"
to access this device's location?

DENY   ALLOW

6 View measurement

- Medical Brain will present your first measurement

- Tap on "Done" to see it added to your chat

Good morning, Anne

Today

I am ready

Delivered 10:31 AM

Great! Let's connect your new device by taking your very first reading. Tap on the button to start.

Start

10:32 AM

Oxygen level: 98, Pulse: 68

Delivered 10:33 AM

Congratulations
Your first measurement is
Oxygen level: 98, Pulse: 68

For future measurements:
Simply open the app, use your device and confirm your measurement when prompted

DONE

Note: If you received more than one device, you will be redirected to "Measurements" screen to set up the next device
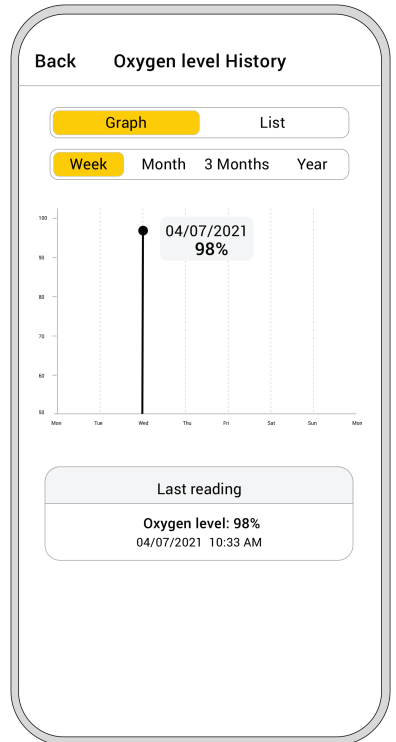

Track your measurements

All your measurements will be saved and displayed in the Medical Brain app under "My data">"Measurements">"Oxygen level">"History"

How to take readings regularly?

Just open the app, use your oximeter and confirm your measurement when prompted

Measurement will be shown in "Chat" and logged under "History" for you and your provider to see

10:22 AM

Blood pressure: 182/105 HR:82

Delivered | 10:30 AM

Thank you! How are you feeling?

10:31 AM

I'm feeling good

Delivered 10:31 AM

I'm glad to hear that! Have you taken your medications this morning?

10:32 AM

yes, 2 hours ago

Delivered 10:32 AM

Thank you! Have you been eating salty foods?

10:33 AM

Tell the Medical Brain

No. I've been good about limiting my salt.

Delivered 10:34 AM

Thank you for letting me know. Your blood pressure of 182/105 is elevated. Provider evaluation is indicated.

10:35 AM

Dr. Smith has been notified. Your blood pressure medications may need to be adjusted.

10:36 AM

Dr. Smith wants you to take an extra dose of Amlodipine 5mg now and to increase your Amlodipine to 10mg daily starting tomorrow.

Please remeasure your blood pressure in 2 hours to make sure your blood pressure is responding to the medication.

If you develop any symptoms such as severe headache, chest pain, shortness of breath, please go to the Emergency department for evaluation.

10:45 AM

Thank you! will do. I'm taking my amlodipine now

Delivered 10:47 AM

Generates an Intelligent Medical Summary (IMS) of all important information about your health history and current health status

Connects you and your care team 24/7: Assists you in scheduling appointments, communicating with your provider, and keeping your provider up-to-date with your health status, all through the Medical Brain's intelligent chat
